English(Intermediate+)

Summary of Qualifications:

Front-End direction - With a one solid year of experience in the IT industry as a dedicated Software Engineer, my primary focus has been on the Front-End, with a notable specialization in Advanced Custom Fields (ACF). Balancing my main responsibilities within the company alongside freelance projects has allowed me to diversify my skill set. Recognizing the continuous evolution of technology, I remain committed to learning and honing my craft. I am now in search of a company that values an enthusiastic and dedicated professional in this field. Explore my portfolio below for a glimpse of my work, and feel free to inquire about additional projects during our online conversation.

- <http://akvaspec.com.ua/> (Elementor, ACF, WooCommerce)
- <https://gimnasium55kherson.com.ua/> (ACF)
- <https://alltravels.eu/> (plugins + ACF)
- <https://factumcentr.com.ua/> (ACF)
- <https://www.exclusivetransportationinc.com/> (Gutenberg + ACF)

My deep expertise in Advanced Custom Fields not only sets me apart but also positions me as a specialist capable of delivering highly tailored and dynamic WordPress solutions. As showcased in my portfolio, I am enthusiastic about leveraging this skill set to contribute effectively to innovative and challenging projects in a collaborative team environment.

In addition to my proficiency in the core technologies, I bring hands-on experience in seamlessly integrating various libraries and frameworks into my projects. This includes:

- Swiper / Slick slider
- Sandbox
- Parallax js
- Rest API(a bit)
- Particles js

QC direction - I have approximately 3.2 year in IT industry as a Software QA/QC Engineer. I have an experience in manual testing of web applications and web-sites, analyse requirements and

clarifications, estimation tasks, test case design, implementation and execution test cases, registration and bug tracking, conformation and regression testing, mentoring new team members, creating test plans, test strategy and summary reports for new features.
Ability to organize, prioritize, work in a fast-paced and find innovative solutions.

1.2 year (web-application) - Dental practice management program that helps users handle many aspects of practice, including registering patients, scheduling appointments, updating patient charts, handling insurance, and running reports.

2 year (web-sites) - Logistic, banking, gaming and entertainment sites(This is a company that works on any service, regardless of its type of employment).
